

CRAPS

Craps is a fast-paced dice game that sparks energy and sends cheers throughout the casino.

There are three dealers at the craps table: the *Stickperson* and two *Basepersons*.

The *Stickperson* stands outside of the table and controls the dice. The *Basepersons* stand on the inside of the game and handle the players' bets.

By listening to the *Stickperson* who also calls the play-by-play, you will know what's happening with each roll of the dice, including which bets win and which bets lose.

The game begins with the shooter's (player throwing the dice) first roll, called the *Come Out Roll*.

THE MOST COMMON CRAPS WAGERS:

PASS LINE

Winners: 7, 11

Losers: 2, 3, 12

Any other number becomes the "point." You win if the shooter rolls the point again before rolling a 7 and lose if he rolls a 7 first.

DON'T PASS LINE

Winners: 2, 3

Losers: 7, 11

If a 12 is rolled, the wager on the *Don't Pass* is a tie (bar). After the point is established, the wager wins if a 7 is rolled and loses if the point is rolled again.

COME BET

This even-money wager is the same as the *Pass Line* and can be made any time after the *Come Out Roll*.

DON'T COME BET

This even-money wager is the same as the *Don't Pass Line* and can be made any time after the *Come Out Roll*.

FIELD BET

You can make this one roll bet at any time. If 2, 3, 4, 9, 10, 11 or 12 are rolled, you win. If any other number is rolled, you lose.

ODDS BET

After a point has been made, an odds bet can be made as an additional wager made on an existing *Pass*, *Don't Pass*, *Come*, or *Don't Come bet*.

HARD WAYS

Hard Ways is a wager that a 4, 6, 8 or 10 will be rolled in their "Hard form" (two 2's, two 4's, etc.), before a 7 or any other combination of that number is rolled (example: 8 = 5 & 3). The *Hard Ways* pays odds of 10 for 1 for a Hard 6 or 8 and 8 for 1 for a Hard 4 or 10.

PLACE BETS

Bet on 4, 5, 6, 8, 9 or 10 and win if the number is rolled before a 7.

ANY SEVEN

Any Seven is a one-roll bet that can be made at any time and wins if a 7 is rolled. Any Seven pays odd of 5 for 1.

ANY CRAPS

Any Craps is a one-roll bet that can be made at any time and wins if a 2, 3 or 12 are rolled.

ELEVEN

Eleven is a one-roll bet that pays odds of 16 for 1 if an eleven is rolled.
